FOR THE GOALS

COLLABORATION WITH NGOS FOR SDG BEST PRACTICES

Benguet State University collaborates with various NGOs to promote best practices aligned with the Sustainable Development Goals (SDGs). The PATHWAY and CDAE Projects focus on curriculum development in entrepreneurship and agroecology. Students from the College of Nursing, College of Forestry, and College of Natural Sciences engaged in local community outreach, while the College of Forestry also participated in international environmental outreach programs. The university has published 55 research articles in national and international journals to enhance teaching and learning. Additionally, a student research congress was held, providing a platform for student researchers to present and defend their studies across five categories: Science and Technology (S&T), Agriculture, Aquatic and Natural Resources (AANR), S&T Food, Industry, Energy, Emerging Technologies, Social AANR, Social Non-AANR, and Education.
